RESUBMISSION OF CORRECTED SEQUENCE LISTING

Sir:

Introductory Comments

At the telephone request of Examiner Mohamed, this is an electronic resubmission of this paper, originally filed via Express Mail (with a mailing date) on May 18, 2009.

This submission is in reference to a telephone call from the Examiner on May 18, 2009, during which the Examiner pointed out an informality in the substitute Sequence Listing submitted on May 8, 2009. In particular, the Examiner noted that removal of one of the species of mouse and rat for the sequences identical for both species was required.

Accordingly, and in accordance with 37 C.F.R. § 1.821 through 1.825, a substitute Sequence Listing in paper form is provided with this submission along with a computer readable form (CRF) of the substitute Sequence Listing. The sequences where the

species were previously identified as both mouse and rat have been corrected to name only the mouse.

The content of the CRF form of the Sequence Listing on the replacement diskette is identical to the substitute Sequence Listing written in paper form. The substitute Sequence Listing introduces no new matter.

If any fees are necessary for the filing of this submission, please charge such required fees to Deposit Account No. 10-0750.

Respectfully submitted,

Date: May 22, 2009
